I am a web developer and writer. I completed my web development certification at Deep Dive Coding, part of CNM's Ingenuity program. This ten week bootcamp-style course familiarized me with HTML, CSS, Javascript, Angular, Bootstrap, PHP, and mySQL, and prepared me to enter the industry as a full-stack developer. I graduated from UNM in 2015 with a bachelor's in English and a minor in art studio. My language, communication, and design skills, combined with my newfound passion for coding, enable me to create sleek, professional web content for a variety of applications.

Skills

- Demonstrated ability to quickly learn and apply new programming languages
    - Strong understanding of the English language
    - Experience with many types of software on various operating systems
    - Ability to perform under deadline pressure

Employment History

Sitel - Albuquerque, NM
Job Title: Customer Service Representative, Retention Department (2017)
Description: Handled customer calls for account cancellations. Customers were often angry; my ability to work quickly and act calmly and professionally helped me to de-escalate such situations.

Smith's Food and Drug - Albuquerque, NM
Job Title: Cashier (2015-2016)
Description: Entered job with no cashier experience. Learned how to operate and manage six self-checkout machines. Switched to regular cashiering and quickly became third fastest in the district.

A&M Landscaping – Los Alamos, NM
Job Title: Co-owner (2009-2013)
Description: Formed and operated a summer landscaping business with friends. Scheduled and performed various tasks including lawn care, deck painting, waste hauling and minor construction. I also promoted our services throughout the town via advertisements and word-of-mouth.

Arthur Montoya, DDS – 2610 Trinity Dr, Los Alamos, NM 87544 – (505) 662-5666
Job Title: Manual Data Entry (2007-2008)
Description: Learned all tooth surfaces and numbers. Entered patient data from physical files into dental software, including personal information and previous dental work. Completed all data entry ahead of schedule.

Education History
